

Being in the middle but feeling outside? – Participating with all senses

The question of how to integrate respectively include people with dementia dominates the discussions throughout the recent years. More and more specialized offers for people with dementia and their relatives have been established – being it religious worships or visits to theatres and museums. Is the mission thus completed?

The 3rd Malteser Congress on Dementia will consider this question, while also providing the latest results of brain research, newly arising topics and future scientific issues.

The first congress day aims at offering the possibility to get a full-range survey on relevant dementia topics. It also leaves room for professional exchange and personal communication. Lectures and speeches alternate with hotspot discussions with the speakers.

On the second congress day concrete questions and challenges will be dealt within panels. All participants do get the chance to contribute actively to the panels, which are guided by moderators and experts.

During the first Congress day and in the plenary session of the second day simultaneous translation is provided. During the panels there will be consecutive interpretation where needed.

The 3rd Malteser Congress on Dementia is part of the celebrations throughout the jubilee year 2019: ten years of cooperation between Malteser & Silviahemmet.

In cooperation with Silviahemmet Foundation/Stockholm, Ärztekammer Nordrhein (Medical Chamber North Rhine)/Düsseldorf, DZNE (German Center for Neurodegenerative Diseases)/Bonn and other actors

*Chair: Dr. Ursula Sottong, Malteser Deutschland, Köln
Petra Tegman, Silviahemmet, Stockholm*

Prof. Dr. Oliver Peters, Charité & DZNE, Berlin

→ Permanent dilemma: freedom versus security
Dr. Bernd Meissnest, LWL Klinikum, Gütersloh

→ Multimorbidity & polymedication: What is of importance for patients with dementia?

Prof. Dr. Karl-Günter Gaßmann, Institut für Biomedizin des Alterns, Erlangen

17:30h Hotspots /discussion with speakers

18:00h Conclusion & Get together

20:00h End of day 1

September 14th, 2019

9:00 -12:00h (including breaks)

Panels

Panel 1

Cognitively impaired and multimorbid – obstacles in practice
The challenge of a successful intersectoral care provision

Persons with dementia and their relatives often get lost in the “health care jungle”.

This panel aims at pointing out how, in the interest of all those involved, outpatient and inpatient care provision can be smoothly connected and processed, to relieve persons with dementia, relatives and stakeholders.

In cooperation with Ärztekammer Nordrhein (Medical Chamber North Rhine)

Moderators & speakers:

PD Dr. Albert Lukas, Malteser Krankenhaus Bonn
Ulrich Langenberg, ÄkNo, Düsseldorf
Sonja Laag, Barmer, Wuppertal
Stefan Nolte, Malteser Deutschland, Duisburg

Panel 2

The power of hope – support for the soul
Spiritual care and self-care

People want to know whom they belong to, they want to be held, be in relationship, be important for someone else and they want to experience sense and sensuality. Living with dementia is not only a question of care levels. Experience in the field of spiritual care is quite young. Yet there are manifold possibilities in the companionship of persons with dementia and their families. Some of them will be presented in this panel.

Moderators & speakers:

Dr. Ursula Sottong, Malteser Deutschland, Köln
Dr. Heinrich Grebe, Institut für Sozialanthropologie und Empirische Kulturwissenschaft Zürich
Elmar Trapp, Generalvikariat Erzbistum, Köln
Prof. Dr. Josef Jenewein, Oberwil-Zug
Dr. Verena Wetzstein, Kath. Akademie, Freiburg

Panel 3

Participating with all senses – activation of persons with dementia

The objective of activation and occupation is to overcome prejudices, to mobilize and to increase the joy of living. It also is to stabilize, to support and sometimes to regain competences of daily life. And, not least, it is to experience community and to relieve relatives. Experts in the field will present new ways of approach, and they will try to reach new areas together with the participants.

Moderators & speakers:

Erpho Bell, Theatermacher & Autor, Havixbeck
Munja Brücher, Ergotherapeutin, Uniklinik Bonn
Sybillie Kastner, Kunstvermittlerin am Lehmbruck Museum, Duisburg
Michael Ganß, Kunsttherapeut, Geragoge & Mitherausgeber von „demenz.Das Magazin“, Duisburg
Corinna Cieslik-Bischof, Gartentherapeutin, Wedemark

Panel 4

Challenging behavior – avoiding escalations – means and methods

Aggressiveness, fear, sleep disturbances etc. can occur sometimes suddenly and apparently without any reason. It is often difficult to cope with these behaviors, moreover since they might be caused by a variety of different factors. Sometimes there is no solution in sight, or violence or fixation might be part of it. In this panel we carefully look at diagnostic means and work on case studies to seek real solutions.

Moderators & speakers:

Katharina von Croy, Malteser Deutschland, Köln
Dr. Klaus Weil, Zentrum für Altersmedizin, Flensburg
Susanne Johannes, Alfried-Krupp-Krankenhaus, Essen.

Panel 5

Enjoy your meal – nutrition and dementia

One of the great challenges is the nutrition of persons with dementia, that not only meets the need to be fed but also aims at experiencing wellbeing and pleasure. The experts in this panel point out the necessary conditions and manifold ideas, also enlightening complex issues like oral health, dysphagia and the PEG tube.

Moderators & speakers:

Isabel Wotschke, Malteser Krankenhaus Bonn,
Dr. Erling Burk, ZAeK Nordrhein, Wesel
Prof. Dr. Daniela Holle, Hochschule für Gesundheit, Bochum
Richarda Holtorf, Deutsche Gesellschaft für Ernährung, Bonn
Sven Reuther, DZNE Witten

12:00h Lunch

13:00h Final plenary

Prof. Dr. Frank Schulz-Nieswandt, Institut für Soziologie und Sozialpsychologie (ISS), Universität Köln/ Vorstandsvorsitzender KDA
Regina Schmidt-Zadel, Vorsitzende Alzheimer Gesellschaft NRW

14:00h Conclusion of the congress
